PROFESSIONAL EXPERIENCE	Apple Inc. , Cupertino, USA ▪ Algorithm Engineer, Apple Maps routing team	Apr. 2020 – present
	Karlsruhe Institute of Technology , Karlsruhe, Germany ▪ (Post)Doctoral Researcher, Institute of Theoretical Informatics – Algorithmics	Oct. 2013 – Mar. 2020
	SAP SE , Walldorf, Germany ▪ Thesis Student ▪ Working Student ▪ Cooperative Studies	Dec. 2012 – Jul. 2013 Oct. 2010 – Jun. 2012 Sep. 2007 – Sep. 2010
	EBF-Energiecontrolling GmbH , Heppenheim, Germany ▪ Internship	Aug. 2004
	Alstom Power Generation AG , Mannheim, Germany ▪ Internship	Sep. 2003
EDUCATION	Karlsruhe Institute of Technology , Karlsruhe, Germany ▪ Dr. rer. nat. in Computer Science / Algorithm Engineering • Advisor: Prof. Dr. Peter Sanders • Grade: summa cum laude (with distinction) ▪ M.Sc. in Computer Science • GPA: 1.1/1.0 (with distinction)	Oct. 2013 – Dec. 2019 Oct. 2010 – Jul. 2013
	Baden-Württemberg Cooperative State University , Karlsruhe, Germany ▪ B.Sc. in Applied Computer Science • GPA: 1.2/1.0	Sep. 2007 – Sep. 2010
AWARDS	Software Development Award , DFG SPP 1736: Algorithms for BIG DATA ▪ For the prominent role in the development of KaHyPar	Sep. 2018
OPEN SOURCE SOFTWARE	KaHyPar - Karlsruhe Hypergraph Partitioning , http://www.kahypar.org/ ▪ A multilevel hypergraph partitioning framework providing partitioning algorithms that compute solutions of very high quality.	
PUBLICATIONS	Conference Articles [1] L. Gottesbüren, M. Hamann, S. Schlag, D. Wagner, “Advanced Flow-Based Multilevel Hypergraph Partitioning”, in <i>18th International Symposium on Experimental Algorithms (SEA)</i> , Jun. 2020. [2] I. Baar, L. Hübner, P. Oettig, A. Zapletal, S. Schlag, A. Stamatakis, and B. Morel, “Data Distribution for Phylogenetic Inference with Site Repeats via Judicious Hypergraph Partitioning”, in <i>IEEE International Parallel and Distributed Processing Symposium Workshops</i> , May. 2019. [3] S. Schlag, M. Schmitt, and C. Schulz, “Faster Support Vector Machines”, in <i>Proceedings of the 21st Workshop on Algorithm Engineering and Experiments (ALENEX)</i> , Jan. 2019. [4] S. Schlag, C. Schulz, D. Seemaier, and D. Strash, “Scalable Edge Partitioning”, in <i>Proceedings of the 21st Workshop on Algorithm Engineering and Experiments (ALENEX)</i> , Jan. 2019. [5] R. Andre, S. Schlag, and C. Schulz, “Memetic Multilevel Hypergraph Partitioning”, in <i>Proceedings of the Genetic and Evolutionary Computation Conference (GECCO)</i> , Jul. 2018. [6] T. Heuer, P. Sanders, and S. Schlag, “Network Flow-Based Refinement for Multilevel Hypergraph Partitioning”, in <i>17th International Symposium on Experimental Algorithms (SEA)</i> , Jun. 2018. [7] T. Heuer, and S. Schlag, “Improving Coarsening Schemes for Hypergraph Partitioning by Exploiting Community Structure”, in <i>16th International Symposium on Experimental Algorithms (SEA)</i> , Jun. 2017.

ACADEMIC SERVICE

Reviewer

- Conferences: ESA’16, HiPC’16, ESA’18, IPDPS’18
- Journals: Cluster Computing, Computers & Operations Research, Systems Architecture (JSA), Transactions on Parallel and Distributed Systems (TPDS)
- Book Chapters: Algorithm Engineering: Selected Results and Surveys
